Premium Water Filtration

The IonX5 treatment system is effective for dissolving and preventing scale, inhibiting corrosion, as well as reducing chlorine, chloramines, and chlorination by-products from your household water.

- Eliminates bad taste and smell associated with chlorine by-products.
- No salt, no chemicals, no on-going consumables.
- Eliminates scale buildup from hard water deposits and helps remove existing scale.
- The best, premium grade NSF certified medias.
- Five level filtering leaves you with clean water, for peace of mind.

*Recommended PSI usage is 80 psi. Intended for residential use only. *Lifetime warranty excludes medias.
Water The Way Nature Intended

The IonX5 utilizes the Clack metered control valve efficiently reducing waste water by 30% for reliable pure water.

5 Levels of Filtration For Pure, Pristine Water

**Level 1: Granular Activated Carbon**
This NSF Certified acid washed GAC removes chlorine, gases, heavy metals, odors, tastes, dyes, fuels, pollutants, disinfectants, pesticides, TTHM, sodium chloride, and volatile organic contaminants (VOC).

**Level 2: Premium Catalytic Carbon**
Premium, high activated carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

**Level 3: Katalox Light**
A light weight media that removes iron, lead, manganese, arsenic, hydrogen sulfide, and heavy metals. Also filters out particles as small as 3 microns and saves on backwash water.

**Level 4: High Density Garnet Media**
High hardness, high density filter media, effectively filters and provides a high quality support bed for this system.

**Level 5: IonX Core Chamber**
NSF approved magnetic water conditioner prevents lime scale build-up and treats corrosion without chemicals making it eco-friendly.

---

Capacity Sizing:

- 2-3 People - IonX5 1 Cuft
  750,000 Gallons
- 3-4 People - IonX5 1.5 Cuft
  1,000,000 Gallons
- 4-6 People - IonX5 2 Cuft
  1,500,000 Gallons

---

The IonX5 is a highly effective and eco-friendly, whole house water treatment system. The IonX5 uses multi-reversing polarity, permanent magnetic fields to affect the “ionic charge identity” of the CaCO and MgCO, making them remain suspended in the water rather than precipitate out as hard water scale. This is the essence of the “conditioned effect” delivered by the IonX5. The conditioned effect lasts for 24 to 36 hours.
